

REMARKS

In the Office Action, claims 1-4, 6-8 and 11-21 were rejected. Claims 5, 9 and 10 were objected to, but indicated as reciting allowable subject matter. By the present Response, claims 1, 13 and 17 are amended, and claim 5 is canceled. Upon entry of the amendments, claims 1-4 and 6-21 will remain pending in the present patent application.

Claim 1 has been amended to incorporate subject matter originally recited in claim 5, indicated as allowable by the Examiner. Claim 5 has been canceled. Accordingly, claims 1-4 and 6-12 are in condition for allowance.

Claim 13 has been amended to incorporate subject matter originally recited in claim 9, indicated as allowable by the Examiner. Accordingly, claims 13-16 are believed to be in condition for allowance.

Claim 17 has similarly been amended to incorporate subject matter similar to that recited in original claim 9. Accordingly, claim 17-20 are believed to be in condition for allowance.

Claim 21 was rejected as unpatentable over the combination of Ronning, Khan and Gilbreth. Applicants have reviewed the Examiner's formulation of the rejection, but cannot identify either in the Examiner's argumentation or in the references support for a *prima facie* case of obviousness. In particular, Applicants note that none of the references appear to show an inductor assembly supported on a fluid cooled support. Accordingly, no combination of the references would include all of the elements recited in independent claim 21. Reconsideration and allowance of claim 21 are therefore requested.

Conclusion

In view of the remarks and amendments set forth above, Applicants respectfully request allowance of the pending claims. If the Examiner believes that a telephonic interview will help speed this application toward issuance, the Examiner is invited to contact the undersigned at the telephone number listed below.
